

Dear Mr J.L.Schmidt,

Can you tell the public who appointed you and who asked the Govt. to create the AUSTRAC which clearly shows now that this AUSTRAC is the bunch of uninvited leeches to suck the left over blood of the small businesses ? What a joke it is ! You want money to regulate the small businesses, in other words to stop them doing money laundering business and help to reduce the competition for your promoters - Big Banks. Do you think that it needs a lot of studies to understand that who you are working for ? It is clearly a dictatorship of the monarchs like you. Otherwise even the existence of this AUSTRAC is against the democracy and the free country.

Thanks for the opportunity to leave the comments.
