

18th November 2010

I run a small corner hotel in Parkes NSW.

I find the proposed levy an insult to all people like myself in small business.

It is already an impost to have to fill out the reports each year and comply with another bureaucratic establishment.

Whilst I understand the greater concept of Austrac I feel that the reporting should only occur when someone has been paid \$10,000 plus on one of my poker machines.

I have not had to do that in almost 5 years and I can't see it happening anytime soon either in my hotel.

Now you have the hide to add an EXTRA TAX on small business of \$241 (proposed).

Just more government created self indulgence that you expect the small business owner to cop.
